Interstitial: Tablet

The interstitial unit is an interactive full-page ad unit. An interstitial is loaded in-between content (such as game levels or web pages). When collapsed (closed), the user's expected content loads.

**Expanded Portrait**

Ad Dimensions	Image Dimensions		Max File Size	
	Lo-res	High-res	Initial Load	Max Load
768 x 1024	768 x 1024	1536 x 2048	300 KB	1 MB
Close Button	DAA Ad Marker *			
Must be located in the top right 50x50 pixels		Appears in the top left 15 x 15 pixel corner by default		

Expanded Landscape

Ad Dimensions	Image Dimensions		File Size

Must be located in the top right 50x50 pixels		Appears in the top left 15 x 15 pixel corner by default		

Raw Assets Delivery

File Format

- Layered PSDs for each design orientation
- Landscape creative is strongly recommended
- All file size limitations apply to font, image, audio, and video files only

Provide URLs for each link

Availability

Devices

- iPad, Android Tablet

Placements

- In-Browser, In-App

Metrics

- Ad Impressions, Clicks, Rich Media Engagements
- 3rd party tracking accepted (metrics listed above) for all site served units via an approved vendor

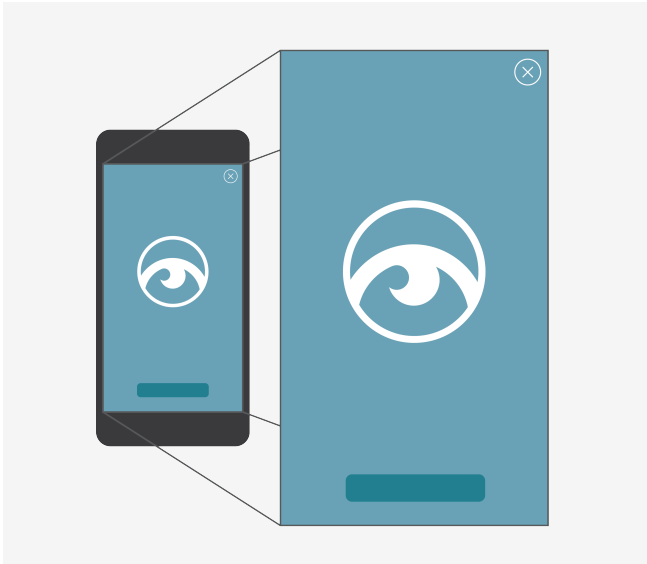

Site Served

Appendix

Ad Dimensions vs. Image Dimensions

Ad Dimensions are the number of pixels in the ad placement. Image Dimensions are the number of pixels in the image used in the ad placement. For hi-resolution graphics, the image dimensions are 2x the ad dimensions, so there are more pixels in the same ad space. This creates a crisper, clearer looking ad.

Creative Positioning

Creatives are always centered within the ad placement; therefore, in landscape orientation the large screen extension is on the left and right. See our "Design Guides" for further information.

Appendix

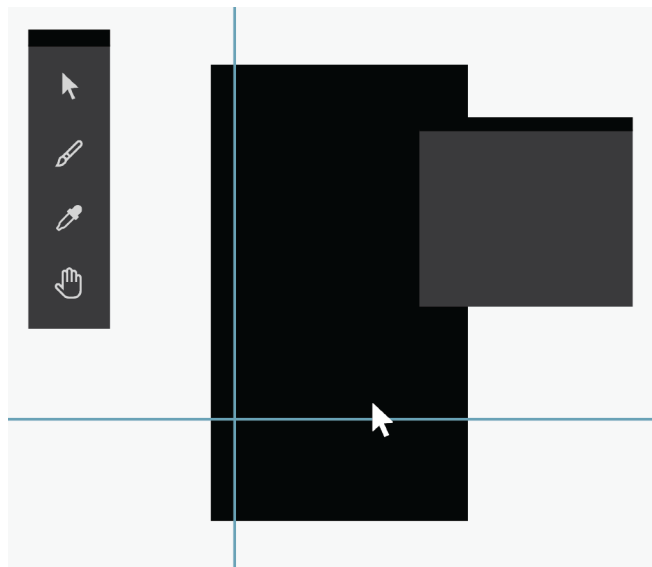

DAA Ad Marker

The DAA (Digital Advertising Alliance) sets the standards for self-regulation of digital privacy and is enforcing industry-wide Mobile Privacy standards ensuring that the Ad-Choices logo and opt-out capability will be a part of creatives tied to audience campaigns using cross-app data.

By default, the Ad Marker appears in the top left 15 x 15 pixel corner of any banner, expanded banner, interstitial or video wrapper, however it may appear in any corner except the top right upon request. Video Plus products always display the Ad Marker in the bottom right 15 x 15 pixel corner.

Upon a tap, the 15 x 15 pixel icon expands to reveal information about Millennial Media and interest-based advertising and gives the user the option to opt out of behavioral targeting.

Design Guidelines

Design guidelines in the form of PSDs are available for download for your convenience at:
