Video Accent: Static End Card

Video Accent includes a full screen video that plays instantly and an informative accent overlay in the bottom left corner. A SKIP button to skip the video to reveal a static end card appears at the 7.5 sec mark. The video automatically resolves to the same end card if seen through to completion.

Accent Overlay

Ad Dimensions	Accent Image Dimensions		Max File Size
	Lo-res	High-res	
1200 x 800	320 x 100	640 x 200	50 KB

Static End Card - Landscape Only

Ad Dimensions	Image Dimensions		Max File Size
	Lo-res	High-res	
1200 x 800	NA	1200 x 800	300 KB

Raw Assets Delivery

File Format

- Layered PSDs for end card

Video

- Length: 15 to 30 seconds
- Format: MP4 or MOV
- Encoding: H.264 encoding
- Aspect Ratio: 16:9 (preferred) or 3:2
- Bit rate: 5 MB
- Frame rate: 30fps preferred
- Audio: AAC

VAST tags accepted for units without end card

3rd Party Served

Video Plus units are site served only

Metrics

- Video impressions
- Video Quartiles (25%, 50%, 75%, 100%)
- Multiple tracking pixels supported
- 3rd party tracking accepted (metrics listed above) for all site-served units via an approved vendor

Availability

Appendix

Ad Dimensions vs. Image Dimensions

Ad Dimensions are the number of pixels in the ad placement. Image Dimensions are the number of pixels in the image used in the ad placement. For hi-resolution graphics, the image dimensions are 2x the ad dimensions, so there are more pixels in the same ad space. This creates a crisper, clearer looking ad.

Creative Positioning

Creatives are always centered within the ad placement; therefore, in landscape orientation the large screen extension is on the left and right. See our "Design Guides" for further information.

Appendix

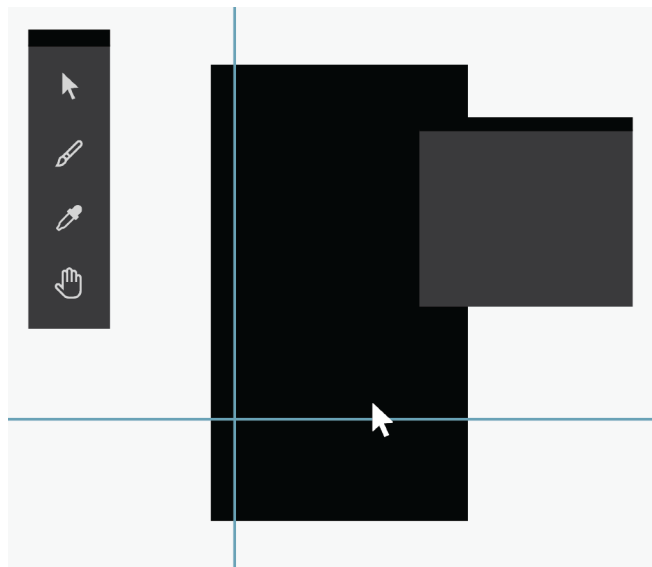

DAA Ad Marker

The DAA (Digital Advertising Alliance) sets the standards for self-regulation of digital privacy and is enforcing industry-wide Mobile Privacy standards ensuring that the Ad-Choices logo and opt-out capability will be a part of creatives tied to audience campaigns using cross-app data.

By default, the Ad Marker appears in the top left 15 x 15 pixel corner of any banner, expanded banner, interstitial or video wrapper, however it may appear in any corner except the top right upon request. Video Plus products always display the Ad Marker in the bottom right 15 x 15 pixel corner.

Upon a tap, the 15 x 15 pixel icon expands to reveal information about Millennial Media and interest-based advertising and gives the user the option to opt out of behavioral targeting.

Design Guidelines

Design guidelines in the form of PSDs are available for download for your convenience at:
